

Call for Papers

LCN 2003

The 28th Annual IEEE Conference on Local Computer Networks (LCN)
Bonn/Königswinter, Germany
October 20-24, 2003

URL: <http://www.ieeelcn.org>

The IEEE LCN conference serves as the premier conference on leading edge and practical computer networking. This approach stimulates a highly interactive environment and enables an effective interchange of results and ideas among local network researchers, developers, and users. During the 27 years of this conference, major advancements have been achieved in local computer networks driven by application demands associated of the global Internet, the Web, etc. This year we are targeting the realm of embedded networks, wireless networks, high-speed networks, ubiquitous computing, and security as well as management aspects surrounding them. Papers covering these areas are explicitly sought and will be given preference. We encourage you to submit original papers describing research results or practical solutions.

Paper topics include but are not limited to:

- | | |
|-------------------------------|---|
| - Personal-Area Networks | - Sensor Networks |
| - Wearable Networks | - High-Speed Networks |
| - Wireless Networks | - Network Management |
| - Mobility Management | - Network Security |
| - Location-Dependent Services | - Network Reliability |
| - Local-Area Networks | - Network to the Home |
| - Home Networks | - Quality-of-Service/Congestion Control |
| - Small-Office Networks | - Adaptive Applications |
| - Embedded Networks | - Performance Evaluation/Measurements |
| - Storage-Area Networks | - Network Traffic Characterizations |
| - Optical Networks | - Overlay Networks |

Authors are invited to submit full or short papers for presentation at the conference. Full papers (no more than 10 camera-ready pages) should present novel perspectives within the general scope of the conference. Short papers are an opportunity to present preliminary or interim results and are limited to 2 camera-ready pages in length. A best paper will be selected based on the quality of research and results, as well as on the quality of presentation by the primary author. Several student travel scholarships may be available courtesy of the LCN corporate supporters. All papers

must include title, complete contact information for all authors, abstract, and keywords on the cover page. The corresponding author must be clearly identified.

Important Dates

Paper submission deadline: April 27, 2003
Notification of acceptance: June 27, 2003
Camera-ready paper due: July 25, 2003
Author registration deadline: July 25, 2003

Paper submission: Papers must be submitted electronically. Manuscript submission instructions will be posted at the LCN web page at <http://www.ieeelcn.org>. In case of questions, please contact the program chairs:

Prof. Dr. Burkhard Stiller
University of Federal Armed Forces Munich
Werner-Heisenberg-Weg 39
D-85579 Neubiberg, Germany
E-mail: stiller@tik.ee.ethz.ch

Prof. Dr. Alan D. George
University of Florida, ECE Department
216 Larsen Hall, POB 116200
Gainesville, Florida, U.S.A 32611
E-mail: george@hcs.ufl.edu

Organizing Committee

General Chair:	T. Strayer, BBN
Finance Chair:	F. Hübner, AT&T Labs
Local Arrangements Chair:	P. Martini, Univ. of Bonn
Workshop Chair:	K. Christensen, Univ. of South Florida
Webmaster:	G. Kessler, Champlain College
Overseas Advisors:	S. Jha, Univ. of New South Wales (Asia/Pacific)
	H. Hassanein, Queen's Univ. (North America)
Standing Committee:	J. Bumblis, Purdue Univ.
	G. Kessler, Champlain College
	M. McKee, Univ. of Minnesota, Rochester
	E. Nolley, Strategic Growth
	H. Salwen, Audeon Networks
